MINIC WAR AT STETTIN.

Interesting Scenes Attending the Kaiser Maneuvers.

WILLIAM LEADS THE CHARGE

The Imperial excursionists Honored by Elaborate Illuminations and a Grand Display of Fireworks Along the Route of Their Journey on the River Oder.

STETTIN, Sept. 10.—The Third and Ninth army corps and the guards began the minor war operations yesterday when Emperor William and his suite assumed a position on the Pecum Hills, on the outskirts of the advance guards of the southern division. The northern division brought up its entire cavalry brigade and two batteries and made a splendid attack, which, however, was checked by the artillery of the southern division long enough to give the southerners time to bring up six cavalry regiments, which charged upon the northerners, driving them back behind Stettin.

The emperor rode at the head of the charge. Captain Evans, military attaché to the United States embassy, followed the charge throughout, but Colonel Swaine, the military attaché to the British embassy, was obliged to dismount. The northern army then concentrated upon Genthinen, while the southern army marched upon Kuhlow, leaving the enemy, somewhat upon their flank, entirely unobserved. At one time the opponents were very much mixed up.

The operations were controlled from a supply balloon, shaped like a cigar, which flew above the moving masses.

At a banquet last evening, Emperor Franz Joseph sat at the right and the King of Saxony at the left of Emperor William. The guests included the Count of Turin, the Princess of Turin, Prince Leopold of Bavaria, Prince Albrecht of Prussia and Maximilian of Baden, General Von Puttkammer, General Von Schellendorf and Lord Roberts. After the banquet the emperor and empress drove to Bollwerk for an excursion on the Oder. The banks of the river were illuminated and elaborate fireworks were set off at different points, while thousands of spectators looked on. Many of the streets of Stettin were also illuminated.

The imperial excursion proceeded as far as Genthinen, where the party witnessed a representation of a fire at sea. Among the illuminations were the inscriptions "Hail to the Emperor," "Thou Art Ours and We Are Thine," "The Vikingship the Vulcan works was a splendid electric effect.

The Steamer Belge Ashore.

SAN FRANCISCO, Sept. 10.—The Oceanic and Oriental Steamship company has received a confirmation of the report that the steamer Belge, from San Francisco for Yokohama, had gone ashore on the coast of Japan. The Belge is a ground on a sandy beach off Yokohama known as King's Point, twenty-five miles from Yokohama. All of the passengers were safely landed in boats. The steamer is resting easily, and no difficulty is anticipated in getting her off.

Died at His Wife's Tomb.

CHAPMAN, Kan., Sept. 10.—John Crowley, an old resident, disappeared last Wednesday, and was searched for in vain. Yesterday he was found dead at the foot of his wife's grave in the Catholic cemetery, where he had committed suicide. Wolves had eaten his face and body so that he was unrecognizable except by his clothing. His wife, who died some time ago, had been mourned deeply by the suicide, and lately he had been very despondent.

GENERAL GOMEZ NOT DEAD.

Official Correspondence Shows the Cuban Commander Alive and Well.

NEW YORK, Sept. 10.—The Herald prints the following special: Headquarters Cuban Insurgents' Department of the East, near St. Louis, Cuba, Aug. 22, via Key West, Fla., Sept. 8, 1895.—The report circulated by the Spanish press of Camaguey and Havana, announcing the death of Maximo Gomez, general-in-chief of the Cuban forces, General Macero assures me, is absolutely false. Nor is General Gomez wounded.

A courier from the frontier of Puerto Principe, who arrived last night, brought official correspondence from General Gomez to Mexico, bearing date a week later than the news purporting to give the details of Gomez's death.

The Spanish General McLea, and not Gomez, was wounded in the fight between Puerto Principe and Na-vitas.

Gomez writes that he is in good health and full of enthusiasm as ever, and that the members of his staff are in excellent spirits.

General Macero is preparing to march to Camaguey to join Gomez. He will take with him from this department 3,000 cavalry to reinforce Gomez and Robles' forces in the central province, leaving 15,000 infantry and 2,000 cavalry to continue operations and maintain rebel positions in the east.

The colonel of the Cuban guerrillas, who recently attacked the Panamá railway and killed several peaceful workmen, mistreating several others, has been relieved of his command by General Macero's order and will be sent, a prisoner, to Gomez, to be court-martialed and punished. General Macero says foreign property shall be respected.

THE TURKISH TROOPS AGAIN.

Villages Sacked, Women Tortured and Children Ravished.

LONDON, Sept. 10.—A dispatch from Kars, Armenia, says that the entire district of Kemaks is surrounded by Turkish troops despatched by Zekkia Pasha under the plea of arresting Armenian revolutionaries.

The villages of Curni, Tirugueni, Tor-tan and Marigur are reported to have been completely sacked, and the population, aggregating 5,000 people, were foully treated. The men were tortured and the women and children were ravished. The four monasteries of Ankawka, Sourphop, Thorvorthchogha and Sonphagop were sacked and the altars and images were destroyed.

Authentic information from Moush is to the effect that an anti-Christian society of Turkish officials has been formed there and at Bitlis with the avowed intention to slay the Christians in the event of the acceptance by the ports of the scheme of reforms presented by the powers.

It is declared that Consul Hampson is to be the first victim.

Two Evidently Tired of This Life.

PHILADELPHIA, Sept. 10.—George Delcio, No. 233 Lemon street, committed suicide by hanging himself to the grape arbor in the rear of his home. The police are unable to account for Delcio's act, beyond the statement that he had had some trouble over a bogus check. Samuel Brush, the night watchman at Craven's Laundry, No. 212 Wallace street, was found by William Walker, the engineer, unconscious from the effects of illuminating gas inhaled with suicidal intent. He was sent to the German hospital, and is in a serious condition.

Coal Operator Sned for Damages.

SHAMOKIN, Pa., Sept. 10.—John Drum-heller, Patrick Hoary, William Gilham, Flotter Schambauer and F. Welker, of West Shamokin, have brought suit for \$50,000 damages against J. Langdon & Co., the lessees and operators of the Neilson colliery. The company, it is alleged, mines coal from land to which they had not purchased the mineral right, and also mines so close to the cut-end of the vein that the surface caved in as the result.

A Handball Challenge.

SCRANTON, Pa., Sept. 10.—John Ricaby and Thomas Dove, both of this place, who recently defeated "Jimm" and "Joe" Corbett in a handball contest for \$50 a side in this city, have challenged Phil Casey and Dun or any other partner Casey may name, for \$1,000 a side. In Brooklyn last Thursday Casey said that he would accept the formal challenge.

To Resign from Congress.

NEW YORK, Sept. 10.—It is authoritatively announced that Congressman Quigg will forward to Governor Morton, within a day or two, his resignation of the office of representative in congress for the Fourteenth congressional district. Mr. Quigg has timed his resignation so as to enable his place to be filled at the coming general election. It is understood that his reasons for resigning are altogether of a business nature.

A Postoffice at the Atlanta Exposition.

WASHINGTON, Sept. 10.—The acting postmaster general has directed a full post-office sub-station to be established at the Atlanta exposition grounds. Visitors to the fair, and the employees, etc., can receive their mail there. A postal car, part of the government exhibit, will be placed alongside the postoffice, and its practical workings shown as an annex to the substation.

Non-Union Miners Join Strikers.

NEAGUKE, Mich., Sept. 10.—The striking miners scored a victory yesterday by inducing thirty-four non-union men, bound for I-shpeming on a Chicago and Northwestern train, to desert and join their ranks. The Calumet company of militia was transferred from I-shpeming to Champion to protect men operating ore crushers there.

New Jersey Judiciary.

TRENTON, Sept. 10.—The supreme court handed down an opinion declaring unconstitutional the county election bill. The opinion is written by Judge Van Syckle, who, with Justices Lippincott and Magie, sat in the case. Justice Lippincott concurring in the opinion, and a foot note says that Justice Magie will express his own view.

Three Boys Run Down at a Crossing.

BALTIMORE, Sept. 10.—Three boys were riding on the tailboard of wagon here when a freight train on the Baltimore and Ohio railway ran into it, killing one and fatally injuring the others. The dead boy was Edward Cromwell, aged 11, and his companions are George H. Herzburger, aged 8, and James Hartton, aged 10. The accident occurred at the Decatur street crossing, and is attributed to the carelessness of the driver.

The Female Bridge Jumper Fined.

NEW YORK, Sept. 10.—Mrs. Clara Magie, the first woman to jump from the Brooklyn bridge, was fined \$5 by Magistrate Crane in the Tombs police court. She paid the fine and left the court with her husband. The woman seems to have fully recovered from her immersion.

TODAY'S YACHT RACE.

All Conditions Favorable for the Second Contest.

VALKYRIE STOCK VERY LOW

And Few Can be Found to Venture an Opinion That the Boat Will Succeed in Getting Even One of the Racers for the Cup.

NEW YORK, Sept. 10.—The indications are that the weather will be favorable for the second race between the British yacht Valkyrie II, and the Defender. Commander Dunn reports that the outlook now is that there will be fresh south winds and a clear sky.

Yesterday afternoon both yachts went out for a trial spin. The Valkyrie left her anchorage at Red Hook at 2 p.m. under jib, jib staysail and mainail, making the starboard tack. She then tacked across the Narrows, heading down the bay again on port tack. At 2:30 she returned through the Narrows, running free under the same sail. At 3:15 she headed down the bay again, passing Quarantine at 3:20 under mainail and jib. When close to Fort Wadsworth she went about and stood off towards Gravesend and went off the long dock south of Fort Hamilton. At 3:25 she went about again and stood down the lower bay.

In the meantime Defender had also got underway, the two boats meeting off the Crescent club house, the Defender on the starboard tack, under jib staysail, mainail and club topsail. The Defender at 3:20 went close to the steam yacht Valiant off Stapleton, went about and headed down the bay toward the Narrows.

At 3:45 both yachts were observed from Sandy Hook in the upper part of the bay, standing on starboard tack towards Coney Island. The Valkyrie was in the lead and somewhat to the windward. It looked as though a private match had been arranged between the two racers. The wind was from the south and blowing at the rate of thirteen miles an hour. Both yachts held their relative positions until 3:45, when the Defender went about and held up the bay. The Valkyrie held on her tack until near the bell buoy at the junction of the Swash and ship channel, when she also went about, and casting off her main sheet, headed up the bay.

At 4:45 the Defender passed Quarantine and she was followed fifteen minutes later by the Valkyrie, also bound for the westward. Both yachts headed about and cast anchor off Bay Ridge, where they remained until this morning.

At an informal meeting of members of the New York Yacht club last night the regatta committee delegated James R. Bush to represent the cup committee on board the Valkyrie at today's race. It was learned that David Henderson, Lord Durand's friend, will represent the British interest on board the Defender. No official action of any kind in regard to the race was taken.

The course today will be an equilateral triangle, ten miles to a side, starting from Sandy Hook. The course is laid out so as to give the yachts a beat to windward on one leg.

Valkyrie stock is decidedly down, and few can be found to venture an opinion that the boat will succeed in getting even one of the races. It was thought that with smooth water, however, the British yacht might do better, but that the difference between her and the Defender on Saturday was too great to be overcome. Not only the followers of the challenger, but those who have pinned their faith on the Defender, are anxious for a blow.

At Fredonia the storm was the heaviest ever known there. The fair ground from two to four feet under water and the Frisco and Pacific trains are waterbound outside the city. The town of Nodoo Rapids, near Emporia, suffered severely. Crops will suffer greatly everywhere.

TOPERA, Sept. 10.—A special from Bremen says that the storm which did so much damage in Girdley, this state, extended from the north to the south end of Coffey county, destroying scores of houses, barns and granaries and greatly damaging orchards and crops. A boy in Key West township near Girdley was killed. George Rodman, his wife and three children were seriously injured. Mrs. Janes and daughter were badly hurt in Stratton.

TOPEKA, Kan., Sept. 10.—Never have such rains been known here as have fallen for the last three days. The whole country is flooded, and the tracks of all railroads leading into the city are washed away and trains delayed. The Pittsburg, Kansas City and Gulf road is probably the worst.

DROPS INTO POETRY AGAIN.

Thomas Dunn English, the Author of "Old Glory," a New National Song.

Thomas Dunn English has been writing poetry for 60 years, and is still courting the muse at the ripe old age of three score and sixteen. He has just prepared for publication a national song called "Old Glory," which he hopes will become as popular in the land of the free as the "Star Spangled Banner" and "Yankee Doodle." The song was written some years ago and set to music, but the music did not please Dr. English, and he recently asked a friend to compose a new air. The friend did the work to the author's complete satisfaction and "Old Glory" will soon be given to the nation. A fair idea of the character of the stirring song may be gained from the first verse, which is as follows:

Though crowns may break and thrones may change, may the world applaud, Our banner shall survive them all And ever live in story.

The rainbow of a rescued land, Where freedom brave together stand, With truth and courage hand in hand, Fleets proudly here, Old Glory!

REMAIN.

Old Glory, Old Glory,
Floats proudly here, Old Glory!
Old Glory, Old Glory! Hurrah for you, Old
Glory!

Dr. English is a very versatile man. He has made his mark in literature, in law, in medicine, in science and in poli-

cies, "and," as he naively remarks. "I am not done with the world yet." He was born in Philadelphia June 29, 1819, and despite his English name is of Irish descent. His ancestors were Quakers who settled in Mount Pleasant, N. J., in 1681. He was educated in private academies, and at the Friends' Boarding house in Burlington, N. J., and at the early age of 17 began writing for Philadelphia newspapers. He received his diploma as a doctor of medicine in 1839 at the University of Pennsylvania, and in 1842 was admitted to the bar. He served in the New Jersey legislature in 1833 and 1834, and was a member of the Fifty-second and Fifty-third congresses. He has been a very prolific writer of both prose and poetry, and says he has written under enough aliases to stock a burglar. Probably his best known production is the song "Ben Bolt," which won wide popularity years ago and again attracted attention recently because it was so conspicuous in Du Maurier's novel "Trilby."

Practical Suggestion From Uncle Allen.

"If I had my way about it," muttered Uncle Allen, after taking out his handkerchief and wiping off as well as he could the mud and water with which the spring-knife of a boy had battered him at the crossing. "I don't allow anybody to pull my coat-tails, to these ears. They would be smacked good if I was to waste."

CANDIDATE CAMPBELL'S CAREER.

Ohio Democrats Call Him a Mascot and Want Him for Governor Again.

James E. Campbell did not desire the Democratic nomination for governor of Ohio this year, but now that his friends and admirers have named him as their standard bearer regardless of his own wishes he is promising, Campbell-like, to "hang himself" for victory in the coming campaign. Mr. Campbell is of Scotch-English descent and is a native of Middleton, Butler county, O., which fact and the additional fact that he has once been elected governor by the Democracy are the reasons why he is called the "Butler county mascot" by his supporters and admirers. He is 52 years of age and is a naval veteran of the late war. He attended the first log cabin school in the county and later studied the three R's at a neighboring academy.

When the civil war began, young Campbell, then but 18 years of age, enlisted in the United States navy and remained in the service throughout the war. He was master mate on the gunboats Elk and Naiad, which were part of the Mississippi and Red river flotillas, and took part in a great deal of very spirited fighting.

JAMES E. CAMPBELL. After the war he studied law and practiced his profession in Butler county with such success that in 1870 he was nominated as prosecuting attorney of the county by the Democrats. He was elected and served four years. He was then elected to the Forty-eighth, Forty-ninth and Fifteenth congresses, winning the last contest by the narrow margin of two votes.

In 1880 he was nominated for governor by the Democrats, and the exciting campaign was watched with interest by the entire country. He displayed marked talents as a political manager and after a hard fight was elected. In 1891 he was re-nominated and had for an opponent Major William McKinley. The campaign was one of the most exciting contests of recent years and resulted in McKinley's election. Mr. Campbell is a Knight Templar, a Knight of Pythias, a prominent Elk and a member of the Grand Army of the Republic. He attends the Presbyterian church, is liberal toward charitable enterprises and is considered a very good lawyer.

KNOWLEDGE

Brings comfort and improvement and adds to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value & health of the pure liquid laxative principle embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels, without weakening them and it is perfectly free from very objectionable substance.

Syrup of Figs is for sale by all drugists in 50 cent bottles, but it is manufactured by the California Fig Syrup Co., only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

OTISVILLE.

Thrown from His Wagon—Death of an Old Resident—The Class of '95—Congregational Meeting in the Presbyterian Church—Other Notes.

Correspondence AGENTS AND MERCURY.

—Mr. Alfred Ketcham, while returning home from Middletown, Thursday evening, was thrown from his carriage and quite badly bruised. The horse became frightened and, in turning the corner near the hotel, threw Mr. Ketcham out. The carriage, which was a new one, was wrecked. The horse, probably satisfied with his evening's work, crossed the tracks and was waiting in Mr. Writer's shed. Mr. Evans and Mr. Hawkins came to Mr. Ketcham's assistance and he was taken to his home, where he spent the following day in bed.

—Mr. McGee, an old resident of Otisville, died at his home on Saturday. The interment was in St. Joseph's Cemetery, Monday morning.

—With the commencement of school and the exodus of the summer boarder, our streets present a deserted appearance.

—School commenced at the "brick school," Monday, Sept. 9th, with Chas. Harding teacher. Miss Hattie Bayea having accepted as teacher at the Rome school, near Johnson, commenced work last week Tuesday. Miss Grace Craig will teach at New Vernon. These are from the class of '95 in the Otisville school. Miss Cora Pierson, also a member of the class, is at school at New Paltz.

—Mrs. A. Otis Smith spent last week among her Otisville and New Vernon friends, returning to Midleton, Saturday afternoon.

—Mrs. Catherine Eager visited at N. W. Bayea's the first of the week.

—Rev. Mr. Johnson has conducted the services in the Presbyterian Church for two Sundays. At the services on Sunday next a congregational meeting is called for after the morning service.

—Mr. and Mrs. Smith and son, Willie, returned to Brooklyn, Monday morning. Master Willie spent two months with his cousin, John Bayea.

—Mr. and Mrs. Isaac Writer left for their home in Carbondale, last week.

—The fall term of the Otisville public school commenced on Tuesday last. The school presents inducements for outside scholars. All such can rely on efficient work by the teachers, for by their reappointment a successful year is already assured.

Does It Pay to be Sick?

Besides the discomfort and suffering, illness of any sort is expensive. Hundreds of people consult the doctors every day about coughs and colds. This is better than to suffer the disease to run along, but those who use Otto's Cure for the throat and lungs do better still. It costs less and the cure is certain. A Box Delivery Prevented.

INDIANAPOLIS, Sept. 10.—The officials at Marion county jail frustrated an attempt at jail-breakery, which, if successful, would have released two murderers now awaiting trial, two burglars, and other criminals. A secret letter intercepted by the sheriff announced that all was ready. A corps of watchmen were placed around the jail. A rope was let down from one of the windows in mud-mortar row, and a man walked hasty up from an alley with a basket. It contained tools which would have set the prisoners at liberty in an hour. Every prisoner in the jail was in the plot.

Miners and Desperadoes Fight.

LOS ANGELES, Calif., Sept. 10.—Information just received here of a terrible fight in Kern county, Nev., between miners and desperadoes, which resulted in the instant killing of two of the latter and the probably fatal wounding of a third. The leaders are Phil Foster, a gambler; Charlie Long, a man half-breed, half-Chinese, and another half breed, whose name is unknown, who was badly wounded. George and Bob Morrison, and their friends did the shooting. The tragedy is the result of an attempt to jump a claim belonging to the Matherne Company.

Syndicate Operations and the Gold Reserve.

NEW YORK, Sept. 10.—Gold to the amount of \$1,000,000 was withdrawn from the sub-treasury yesterday for shipment to Europe today. W. G. Crossman & Bro. took \$300,000; Nessare and Fuller \$194,000 and Cushing & Co. \$100,000. These withdrawals brought the treasury's gold reserve down to about \$7,360,000. It was expected that Belmont-Morgan's syndicate would make a large deposit of gold in the treasury, restoring the reserve to \$10,000,000, but no deposit was made.

Shot While Playing Chess.

NEW YORK, Sept. 10.—For some time past the residents of Prospect street have been annoyed by what superstitious people call a ghost. Frank Weil and William Gould, wishing to have a sound knowledge of the ghost present the ghost. Henry Brown, on his way home, saw the pair, and naturally was the much talked of subject. Weil and Gould followed him to his door. Weil recited a rhyme and Brown got a bell. Both men are said to be, though a little dim.

KILLED at a Ball Game.

NEW YORK, Sept. 10.—Benjamin F. Myers, 20 years old, was almost instantly killed yesterday in a ball game. He was standing on second base in an amateur match when the baseman jumped into the air to catch a thrown ball. He dropped on Myers, his body falling on the young man's neck and dislocating his spine.

A Girl Falls Down an Elevator Shaft.

NEW YORK, Sept. 10.—Maggie Fenly, a chambermaid employed at the Sherman Square Hotel, fell from the sixth floor of the hotel to the cellar, down the elevator shaft, and was instantly killed. The girl had evidently fallen on her head, crushing the skull like an eggshell.

Dr. Fraker Identified by His Sister.

RICHMOND, Mo., Sept. 10.—Mrs. N. J. McGruder, of Atlanta, Mo., sister of Dr. Fraker, has arrived here, and if any doubt existed before as to the identity of the man now in jail, it has been dispelled by his meeting with her. She recognized him at once.

NOT MUCH TO BRAG OF.

The jubilation of certain Republican papers over the reduction of \$3,000,000 in Orange county's equalized valuation secured from the State Board of Equalization, last week, has been so excessive as to beget the suspicion that an attempt is being made to manufacture political capital out of the action of the State Board.

Certain it is that a very erroneous impression as to the nature and effect of the reduced valuation has been given the public by some of the Republican organs that have had most to say on the subject.

The assessed valuation of Orange county last year was \$33,325,873 real and \$4,409,788 personal. To this the State Board of Equalization added \$6,605,344, making a total of \$44,841,005. From this \$3,000,000 is taken this year, a reduction of about one-fifteenth.

Orange county's share of the State tax, last year, was \$90,507, and one-fifteenth of that is \$6,638. This year the State tax being nearly fifty per cent. greater, because of the extravagance of the Republican Legislature, the amount saved Orange county will be proportionately greater, or \$9,686.

Just what these reductions mean to the individual taxpayer can easily be determined. The assessed valuation of the county being \$35,235,001 the rate of the reduction is obtained by dividing the amount of the reduction by the assessed valuation, and this gives us about 15 cents per \$1,000 of valuation on the basis of last year's State tax, or 26 cents on \$1,000 on the basis of this year's State tax.

In other words the reduction in Orange county's valuation, forced from the State Board of Equalization not as a matter of right or justice, but because Republican State officers did not dare disobey the command of Boss Odell, will save the man who pays taxes on \$1,000 worth of property the enormous sum of 26 cents. Not very much to brag of in any event, and a most insignificant matter when it is remembered that as a result of the recklessness and extravagance of the Republican Legislature the State tax on every \$1,000 of property is \$1 25 more than it was last year. The taxpayer is a dollar a thousand behind the game, and the county, with \$1 25 "saved" by the reduced valuation will pay about \$29,000 more of State taxes than it did last year.

There is nothing to prevent any one concocting a mixture and calling it "sarsaparilla," and there is nothing to prevent anyone spending good money teasing the stuff, but prudent people, who wish to be sure of their remedy, take only Ayer's Sarsaparilla, and get cured.

Stomach and Bowel Complaints are best relieved by the timely use of DeWitt's Colic & Cholera Cure. Insist on having this preparation. Don't take any other. W. D. Olney.

VALKYRIE'S DAY!

The Defender Beaten by 47 Seconds, Corrected Time.

FOULED BY VALKYRIE!

The Defender Crippled Before the Start.

VALKYRIE LEADS THROUGHOUT.

Protest Signal Hoisted by Defender, and With Bent and Cracked Topmast She Starts After Valkyrie—The Race in Detail—A Sixteen Mile Breeze in the Latter Part of the Race—A Very Close Finish.

SANDY HOOK, Sept. 10.—Fog and murkiness prevailed on the dawn of the day set for the second race between the Valkyrie and Defender. There was, however, a gentle breeze from the westward and the sun soon shone through the fog. The yachting contingent were not dismayed by the early morning weather prospects and are out in full force. The crowds on excursion boats and club steamers are not as great as on Saturday, but are very large. By 9 o'clock the atmosphere was clear.

Americans showed confidence in their boat by offering heavy odds. Englishmen and Canadians kept up an air of confidence, but refused all odds.

Both yachts passed the night at their anchorage at Bay Ridge. Their crews breakfasted early and then carefully tested the rigging and deck tackle.

NEW YORK, Sept. 10.—Nautical men predicted a good breeze. Defender was the first of the racers to leave her anchorage, starting for the scene of action at 7:40. Valkyrie left ten minutes later. On the Defender were Mr. and Mrs. Iselin, Herreshoff and David Henderson, the representative of Dunraven. Both yachts began to hoist their sails as soon as they were under way, but will remain in tow until the starting point is reached.

SANDY HOOK—Going down the main channel both yachts were saluted by passing steamers and tugs. On the Valkyrie were Dunraven's two daughters, Arthur Glenie, H. Maitland Kersey and Sailmaster Ratsey.

HIGHLANDS, 2:50 P.M.—Both yachts are maneuvering near Sandy Hook lightship and are almost lost in a fog. The wind is hauling toward the south. The sea is very smooth. A great flotilla of steamboats, steam yachts, tugs, etc., is assembled near the starting point.

The excursion boats are crowding and jostling each other in a mad endeavor to get near the contesting yachts, and are causing much trouble to skippers of Valkyrie and Defender. The patrol boats seem powerless to keep them off.

SCOTLAND LIGHTSHIP, 11:06—The yachts have started. Valkyrie got over on the starting gun. The Defender crossed just before the gun allowing the yachts two minutes to cross the line was fired.

11:11 A.M.—Fifteen seconds before the start the Valkyrie's boom broke. Defender's top mast bent, bending her top mast to leeward and cracking it. The Defender continued on her course, but hoisted a protest signal.

Valkyrie was plainly at fault as the Defender had the right of way. The Valkyrie is leading in a windward position.

The starting gun was fired at 11 o'clock and two minutes later the limit gun was fired. After crossing, Valkyrie led slightly, but Defender is rapidly closing the gap. The fleet leg of the course is southwest by south.

SANDY HOOK—The jockeying for positions at the start was as fine a piece of work as was ever seen, but unfortunately it ended in a foul just as the boats crossed. Valkyrie, despite the tactics of Defender, held

the windward berth. They were almost side by side, with Defender trying to walk through the Britisher's lee. Five seconds before the gun was fired for the start the boats collided, Valkyrie's boom carrying away the topmast stay of the American boat. Defender luffed and took in her bay jib topsail, while Valkyrie rushed across the line. Defender lost some time in straightening out her rigging and hoisted a protest signal, which was answered by the judges' boat and then went in pursuit of her rival.

The fault was plainly with the Valkyrie, whose captain eased her sheets to prevent going over the line before the gun was fired.

HIGHLANDS, 11:30—The Defender's sheets are trimmed flatter and she is evidently outpointing the Valkyrie. The wind is freshening. Excursion steamers are behaving now and keeping off from the yachts. The Valkyrie is about one-eighth of a mile in the lead.

SCOTLAND LIGHTSHIP, 11:35—Both yachts passed this lightship on even terms.

Official starting time—Valkyrie, 11:00-15; Defender, 11:01-15.

HIGHLANDS, 12:30 P.M.—English boat from here appears to be actually in the lead, but Defender has worked herself into the weather position.

LONG BRANCH—Valkyrie seems to have gained on the last tack and looks three-quarters of a mile ahead.

Valkyrie turned the stake boat, ten miles from the start, at 12:57. Defender turned three minutes and a half later.

HIGHLANDS, 2:30 P.M.—The Valkyrie is two miles ahead. Official time of turning stake boat, first leg of course, was Valkyrie 12:57:43; Defender 1:01:35. The wind has increased to sixteen miles.

HIGHLANDS, 2:50 P.M.—The yachts are on the last leg of the course. Valkyrie is four minutes ahead and is a sure winner, barring accidents.

SCOTLAND LIGHTSHIP, 3 P.M.—Defender crossed the line at 2:57:30, about three minutes behind the Valkyrie.

On corrected time the Valkyrie wind by 47 seconds. This is official.

PROMISE NEW YORK PURE MILK.

Wholesome Dealers Make Peace with the Authorities—Farmers Not Responsible for Adulteration.

A committee of wholesale milk dealers, George Slaughter, of Campbellfield; I. C. Jordan, of this city; M. Z. Sanford, of Warwick; W. A. Wright, of Clinton Place, N. Y., and C. H. C. Becker, of New York city, had a conference, yesterday, with Justice Jerome, of the Court of Special Sessions, and representatives of the Health Board. They expressed a desire to co-operate with the authorities in preventing the sale of adulterated milk, and although the chemists of the Health Department insist that the standard of purity should be three and a half per cent of fat in twice per cent of solids, Justice Jerome assured the dealers that he would regard milk having three per cent of solids as pure.

The wholesale dealers seem to have convinced the newspaper that the farmers are responsible for all the adulterated milk that reaches the city, and that they, poor innocent, are the victims of the farmers' guile. To those, however, who know of the skimming and the mixing that goes on in creameries, in order to transform "crude milk" into "pure milk" the question is that the creamerymen are guilty of adulteration and grotesque in its imprudence and mendacity.

A BIRTHDAY SURPRISE.

The Ladies' Aid Society of St. Paul's Church gave a presentation to its secretary.

Mr. and Mrs. E. H. Bertholf have leased their residence on Wickham Avenue to Messrs. J. C. May and F. H. Elliott and will give up house-keeping for the present. Mr. Bertholf will go on the road as a traveling salesman, and Mr. Bertholf will spend the winter with friends at Bradford, Pa.

Mrs. Bertholf has for several years been the very efficient Secretary of the Ladies' Aid Society of St. Paul's Church and, desiring to give expression to their regret at her intended departure from the city, and in recognition of her valuable services to the society, they decided to give her a surprise party on her birthday anniversary.

This event occurred yesterday and, last evening, about twenty of the ladies, some of whom were accompanied by their husbands, marched in upon her unannounced and gave her a genuine surprise.

The ladies brought with them an abundance of refreshments, and before leaving, presented Mrs. Bertholf in behalf of the society with a hand-some gold ring and gold thimble.

WHO IS THE SPOOK?

A ghostly-looking figure that frightened women and children.

A ghostly-looking figure appeared on Houston avenue at two different times last night, and greatly frightened women and children who saw it. The ghost didn't seem to have any particular purpose to view except to walk up and down and exhibit its makeup, which consisted of flowing gray hair and whiskers and a black robe.

A well-known resident of the street, who was called from his room to look at the ghost, gave chase, but the ghost was faster of foot than he and soon disappeared around a corner in the darkness. Next time the efficacy of bullets to check the ghost's speed will be tried.

THE WORLD'S SILVER

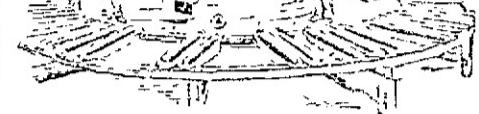

SOME LITTLE UNDERSTOOD POINTS CONCERNING THE WHITE METAL.

Once Gold Was Less Valuable Than Silver. It Is Everywhere Present, Even In the Sea—America Has Most of the Big Mines. Production.

Let us devote a little attention to silver today—not "the silver question" with its complications as to ratios and values and economics, but the white metal itself. Everybody is talking upon the "question," nearly everybody has views upon it, and you and I, reader, may hold such utterly diverse opinions concerning it that if we were to discuss it we might fall out and fight. But there can be no possibility of a row over consideration of the metal itself. It is an interesting element, and always has been. It is doubly so just now, both be-

cause it also relieves from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. Regulates the Bowels. Purifies Vegetable.

Small Pill. Small Dose. Small Price.

CASTING SILVER PIGS.

cause it seems possible that it will be the king pin around which the great political fight of 1896 will revolve and because of the enormous quantities that will have to be got together by the Chinese to pay their enormous war debt to the victorious Japs. There are a lot of curious facts about silver, and herein I shall simply collate some of the least known of these out of the way bits. It would be impossible in any space of less extent than an entire newspaper to intelligently treat of so big a subject as silver in any other way.

First of all, it seems not to be generally understood that in some ancient states silver was held in much higher esteem than gold, yet such was undoubtedly the fact. It was certainly so in ancient Arabia and in ancient Germany. During the whole period termed antiquity, silver was almost universally at least equal with gold in value, and there was no change in their relative worth until the silver mines began to show signs of giving out. Owing to the greater softness of gold, the yellow metal was not much used for coinage prior to that time, silver and copper being employed chiefly for money purposes. But when silver began to grow scarce gold was pressed into service, legally declared to be worth more, weight for weight, than silver, and hardened by alloys, so that it would bear the wear and tear of circulation.

Down to the seventeenth century the two metals were still held to be of equal value in Japan, the country into whose coffers China will shortly pour all the silver she can rake and scrape anywhere.

Another curious point about silver is the alleged fact that, if the total cost of its mining and the actual value of the product of the mines were written on opposite sides of a ledger page and a balance were then struck, it would be found that the world's supply has cost many millions more than it is worth, even at the 16 to 1 ratio. At the present commercial rates the selling value of the silver in existence bears a still smaller relation to the cost of digging and refining. This should not be considered detrimental to silver as compared with gold, however, for gold is alleged also to be produced at a loss, everything considered, and figures have been published showing that considerably more than \$3,000,000,000 in money have been expended in getting out the \$3,000,000,000 worth of the two metals that has been yielded up by the mines of California, Australia and Nevada.

Like gold, silver has always been much more plentifully produced in new countries than in old ones, and this is easy to understand, since the mines are always well worked out before a land attains age. But there is this difference between gold and silver. While there are very important gold mines in Australia and Africa, almost all the great silver mines in the whole world are in America, north and south, the United States, Mexico and Peru being the chief producing countries at this time. It is not possible to make an accurate statement regarding the total annual output of silver because its production, unlike its coinage, being "free" no government supervision is made. It is estimated, however, that the present yearly production is not far from \$6,000,000 ounces, but he would need to be an ex-

ceptionally wise man who should under-

stand the circumstances to reduce that vast quantity of the white metal to a money value.

Unlike gold, silver is rarely found in its native state, and then in comparatively small quantities. Moreover, most

It will all come to an end with Dr. Pierce's Favorite Prescription for it's woman's special tonic and nerve-vine; it restores her strength, regulates and promotes all the natural functions and makes a new woman of her. Utter debility, irregularity and inflammation are most often the cause of the extreme nervousness and irritability of some women—their maid-servants are it is the "prescription" of Dr. Pierce. All the aches, pains and weaknesses of womanhood vanish where it is faithfully employed. Dr. Pierce's Favorite Prescription is therefore just the medicine for young girls just entering womanhood and for women at the critical "change of life."

DR. PIERCE'S FAVORITE PRESCRIPTION

CURES THE WORST CASES.
Mr. HOMER CLARK, of No. 25 West 3d Street, Sioux City, Ia., writes: My wife was troubled with female weakness, and ulcers of the uterus, and ulcers of the bowels, along with every doctor of any good reputation, and had spent lots of money in hospitals, but to no purpose. She continued to get worse. She was greatly prejudiced against patent medicines, but as a last resort we tried a bottle of Dr. Pierce's Favorite Prescription. We had seen some of your advertisements, and Mr. Cummings, a west-side druggist, recommended us to try a bottle. We tried it with the following result: The first bottle did her so much good that we bought another, and have continued until she has been cured."

Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher? That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

SPECIAL NOTICE.

Owing to the large number of patients who were unable to consult

them at the time of their former visit, they again and for the last time extend the offer and call attention to the fact that on future visits, all new patients will be charged the usual office fee.

ALL WHO VISIT THESE EMINENT PHYSICIANS LEAVING THE ABOVE DATES WILL RECEIVE CONFIDENTIAL EXAMINATION, ADVICE AND SERVICES ABSOLUTELY FREE UNTIL OCTOBER.

THESE DOCTORS ARE CATARRH, BRONCHITIS, ASTHMA, EPILEPSY, NERVOUS, EXHAUSTION, RHEUMATIC, DOCTORS AND ABSOLUTELY GUARANTEE EVERY CASE OF CONSUMPTION THEY AGREE TO TREAT.

These Doctors have been most ably termed

THE WORLD'S GREATEST EXPERTS.

They point out, locate and describe every ache, pain and disagreeable feeling more fully, clearly and explicitly than has ever been done by any physicians on earth, and better than the patients can themselves; they understand and explain disease at a glance and pictorially its incipiency, progress and termination.

No person should doctor any further or take any more Medicine before consulting them.

Not only will callers be surprised at their wonderful knowledge of disease, their plain, concise explanation of every cause and effect, but at the marvellous rapidity with which the new, common sense RATIONAL treatment goes to the very root of the trouble giving almost instant relief, and in all cases that have not progressed too far.

A Perfect, Absolute and Permanent Cure.

These doctors wish it distinctly understood that they will not take incurable cases—reserving the right to reject any case that in their judgment has passed into the incurable stage. Let us tell you that at some prior stage these cases were probably all curable.

Young or middle aged men suffering from Specific or Special Nervous Diseases find IMMEDIATE RELIEF and PERMANENT CURE under the RATIONAL system discovered, formulated and employed by these Doctors.

Hours 9 a.m. until 8 p.m. Sundays Closed.

Main Office: 229 Broadway, New York City
